

# Create a Puzzle!

## Instructions:

1. Color picture
2. Cut along box and grey puzzle lines
3. Shuffle puzzle pieces
4. Put back together again!

Optional: Give your puzzle to a friend so they can put it back together again.

Note: You can use any printer paper you want but a thick, sturdy cardstock like this one:

<https://goo.gl/jbjqlf> will keep pieces from bending and ripping a bit better.
